TECHNICAL SKILLSET OVERVIEW

- **Languages:** PHP, JavaScript (ES6+), TypeScript, Dart, Python, C, SQL, HTML5, CSS3.

- **Frameworks/Libraries:** Laravel (Expert), React, Next.js, Flutter, Livewire, AlpineJS, JQuery, Bootstrap, Tailwind CSS, Shadcn/UI.

- **Database Management:** MySQL (Administration & Design), Firebase, MongoDB (Basic), phpMyAdmin.

- **Infrastructure:** Docker, Linux Server Management (Ubuntu/Debian), Apache, Cronjobs, FTPs, WSL, Git/GitHub.

- **Design/Media:** Figma, Adobe Photoshop, Video Editing.

DETAILED PROFESSIONAL EXPERIENCE

VelpFi Technologies | *Lead Software Engineer 2024 – 2026*

- **System Modernization:** Spearheaded the overhaul of legacy hospital management systems, improving data processing speed and UI/UX for healthcare providers.

- **Leadership:** Served as the primary technical point of contact for stakeholders, translating business goals into technical roadmaps.

- **Instruction:** Conducted weekly technical workshops for interns, covering Git workflow, OOP principles, and modern framework implementation.

Bezhol Int'l | *Assistant Lead Developer 2023 – 2024*

- **API Integration:** Successfully integrated complex OAuth and real-time data streams from LinkedIn into the core platform.

- **Team Optimization:** Introduced peer-review protocols that reduced production bugs by 25%.

CarlozDev | *Intern (MERN Stack Focus) 2021*

- Introduced to non-relational database structures (MongoDB) and modern JavaScript fullstack workflows.

ACADEMIC BACKGROUND & CERTIFICATIONS

- **B.Eng. in Software Engineering:** University of Buea (2020-2023).

- **Web Development Attestation:** Zepstra Ltd (2020) – Intensive 5-month frontend bootcamp.

- **IT Fundamentals:** Mbecha Tech (2016) – Database administration and office systems.

PROJECT HIGHLIGHTS

- **Enterprise Hospital System:** (Under NDA) Comprehensive upgrade involving secure patient data handling and real-time reporting.

- **Custom WordPress Ecosystems:** Developed numerous bespoke plugins and themes for diverse freelance clients.

- **Mobile Solutions:** Currently developing cross-platform applications using Flutter and Firebase for real-time synchronization.
